¹ Third Point Investors Limited is a feeder fund into Third Point Offshore Fund, Ltd. (the “Master Fund”). Unless otherwise noted, exposure and attribution data presented in this report is representative of the Third Point Offshore Master Fund, L.P. inclusive of Legacy Private investments. The Master Fund is a feeder fund in a master-feeder structure to the Third Point Offshore Master Fund L.P.

² Includes all funds and separately managed accounts managed by Third Point and its affiliates and participation notes issued by the applicable Third Point-managed funds relating to legacy private investments.

³ Figure reflects U.S. Dollar Ordinary Shares with one voting right per share.

⁴ Management and incentive fees are charged at the Master Fund level. The 20% incentive fee is subject to a standard high watermark, whereby the Investment Manager must recoup any depreciation in capital before receiving an incentive fee. This high watermark is re-set each fiscal year where an incentive fee is charged.

⁵ Reflects the total share price return of Third Point Investors Limited.

⁶ The net AUM figure for Third Point Investors Limited is included in the AUM of Third Point Offshore Fund, Ltd.

⁷ Excludes any confidential positions, portfolio level equity hedges and EU MAR related positions.

⁸ Does not include private debt.

⁹ Returns for periods greater than six months and one year are annualized. Inception dates for Third Point Investors Limited and Third Point Offshore Fund, Ltd are 20 July 2007 and 1 December 1996, respectively. Third Point Investors Limited NAV and Price returns are inclusive of dividends.

¹⁰ NAV, Price, and Premium/Discount data is presented for the trailing 12-month period as of the date of this report. Data is presented using month-end figures only.

¹¹ Portfolio and position level MTD and YTD details reflect the Third Point Offshore Master Fund L.P. inclusive of Legacy Private investments. The sum of long and short exposure percentages and the sum of gross long and short MTD and YTD P&L percentages may not visually add to the corresponding net figure due to rounding. Subtotals of long, short, and/or net exposure percentages and MTD and YTD P&L percentages may not visually match the corresponding subtotal in another section of the report due to rounding.

¹² Gross P&L attribution does not reflect the deduction of management fees, incentive allocations and any expenses which may be incurred in the management of the fund. An investor’s actual return will be reduced by such fees and expenses. See Part 2A of the Adviser’s Form ADV for a description of the management fees and incentive allocations customarily charged by Adviser.

- ¹³ From Fund inception through December 31, 2019, each Fund's historical performance has been calculated using the actual management fees, incentive allocations, and expenses paid by the Fund. The actual management fees and incentive allocations paid by the Fund reflect a blended rate of management fees and incentive allocations based on the weighted average of amounts invested in different share classes subject to different management fee and/or incentive allocation terms. Such management fee rates have ranged over time from 1% to 3% (in addition to leverage factor multiple, if applicable) per annum. The amount of incentive allocations applicable to any one investor in the Fund will vary materially depending on numerous factors, including without limitation: the specific terms, the date of initial investment, the duration of investment, the date of withdrawal, and market conditions. As such, the net performance shown for the Fund from inception through December 31, 2019 is not an estimate of any specific investor's actual performance. During this period, had the highest management fee and incentive allocation been applied solely, performance results would likely be lower. For the period beginning January 1, 2020, each Fund's historical performance shows indicative performance for a new issues eligible investor in the highest management fee (2% per annum), in addition to leverage factor multiple, if applicable, and incentive allocation rate (20%) class of the Fund, who has participated in all side pocket private investments (as applicable) from March 1, 2021 onward. Net performance reflects the deduction of operating expenses paid by the Fund during the period, and, unless otherwise noted, is inclusive of legacy private investments. An individual investor's performance may vary based on timing of capital transactions. The inception date for Third Point Offshore Fund, Ltd. is December 1, 1996, Third Point Partners L.P. is June 1, 1995, Third Point Partners Qualified L.P. is January 1, 2005, Third Point Ultra Ltd. is May 1, 1997, and Third Point Ultra Onshore LP is January 2019.
- ¹⁴ Includes constructivism, activism and post-activism positions. "Constructivism" is defined as communications with an issuer regarding Third Point ideas to increase shareholder value that conclude without activism. "Activism" is defined as an active campaign currently ongoing.
- ¹⁵ Includes broad-based market and equity-based hedges.
- ¹⁶ Includes currency hedges, macro investments, and receivables. Interest rate swaptions, rates and FX related investments are excluded from exposure figures. MTD and YTD P&L of Other includes net attribution of macro investments and certain P&L components not directly attributed to individual sub-asset classes such as gains and losses attributable to unhedged currency movements relative to USD, interest income and expense on cash balances, financing income and expense, etc.
- ¹⁷ Market capitalization reflects only those holdings that are exchange-listed equity or any synthetic equity with an underlying reference instrument market capitalization.
- ¹⁸ Beta-adjusted exposures are calculated relative to the S&P based on one-year of historical daily returns for USD denominated assets and weekly returns for foreign denominated assets. Dollar-adjusted exposures are calculated with option positions shown at current market value in lieu of delta-adjusted exposure.
- ¹⁹ Equity positions do not include SPAC holdings and related transactions that have not yet announced a business combination agreement.
- ²⁰ Includes broad-based market hedges and interest rate/spread hedges. Interest rate/spread hedges are excluded from exposure figures.
- ²¹ Includes broad-based market hedges.
- ²² Other includes non-tranched ABS, CDS, and direct asset investments.
- ²³ ASC levels provided are inclusive of legacy private investments and are as of 30 September, 2024.
- ²⁴ Participation Notes represent an investor's pro rata share of the Master Fund's indirect Legacy Private Investments as of June 30, 2023, and a small cash reserve. "Legacy Private Investments" is defined as Private Investments (investments indirectly held by the Master Fund that are traditionally considered venture capital or private equity) other than those with ongoing capital contributions. Third Point Investors Limited's Participation Notes were distributed by a subsidiary of the Master Fund in connection with redemptions made in current and/or prior periods.

As such, the net performance shown for the Fund from inception through December 31, 2019 is not an estimate of any specific investor's actual performance. During this period, had the highest management fee and incentive allocation been applied solely, performance results would likely be lower. For the period beginning January 1, 2020, the Fund's historical performance shows indicative performance for a new issues eligible investor in the highest management fee (2% per annum) and incentive allocation rate (20%) class of the Fund, who has participated in all side pocket private investments (as applicable) from March 1, 2021 onward. Net performance reflects the deduction of operating expenses paid by the Fund during the period. An individual investor's performance may vary based on timing of capital transactions. The inception date for Third Point Offshore Fund, Ltd. is December 1, 1996. All performance results are estimates and past performance is not necessarily indicative of future results. Any such offer or solicitation may only be made by means of delivery of an approved confidential offering memorandum. The Funds' performance information shown within includes net gains and losses from "new issues." The market price for new issues is often subject to significant fluctuation, and investors who are eligible to participate in new issues may experience significant gains or losses. An investor who invests in a class of Interests that does not participate in new issues may experience performance that is different, perhaps materially, from the performance reflected above. All performance results are estimates and should not be regarded as final until audited financial statements are issued. The performance results of the Funds include unrealized gains and are based on valuations, which are not certain. Third Point values the securities and other instruments comprising the assets and liabilities of each Fund pursuant to Third Point's written valuation policy, as it may be amended from time to time. A summary of Third Point's valuation policy is available to any limited partner or potential investor upon request. Valuations assigned to an asset are not necessarily equivalent to the value that would be realized on the sale of that asset, if sold. Please see the applicable Fund's offering documents for additional information about valuations.

While the performance of the Funds has been compared here with the performance of well-known and widely recognized indices, the indices have not been selected to represent an appropriate benchmark for the Funds whose holdings, performance and volatility, among other things, may differ significantly from the securities that comprise the indices. The indices include the reinvestment of dividends, interest and other earnings and have not been adjusted for management fees or expenses. Investors cannot invest directly in an index (although one can invest in an index fund designed to closely track such index). Past performance is not necessarily indicative of future results.
